VEVOR®

TOUGH EQUIPMENT & TOOLS, PAY LESS

12V 8KW Diesel Air Heater

When it gets cold, we provide you with this diesel heater 12V to warm your whole winter. The heater diesel heats up fast and eliminates the windows' frost quickly. Due to the low fuel and power consumption, it is suitable for longer operation time. You can install this parking heater 12V diesel anywhere in your vehicle and easily operate it via remote control or the LCD panel. Our diesel heater van is a handy morning companion for any diesel vehicle and is ideal for indoor use.

VEVOR®

Tough Equipment & Tools, Pay Less

VEVOR is a leading brand that specializes in equipment and tools. Along with thousands of motivated employees, VEVOR is dedicated to providing our customers with tough equipment & tools at incredibly low prices. Today, VEVOR has occupied markets of more than 200 countries with 10 million plus global members.

Why Choose VEVOR?

Premium Tough Quality

Incredibly Low Prices

Fast & Secure Delivery

30-Day Free Returns

24/7 Attentive Service

RAPID HEATING & LOW NOISE

Create a warm & quiet environment

Rapid Heating & Low Noise

The 12V 8KW diesel air heater achieves rapid heating even at -40°C , which quickly eliminates the windows' frost off your car. Noise is also effectively reduced through blower speed control, silent fan, and oil pump.

ENERGY-EFFICIENT FUEL PUMP

Fuel Consumption
0.11-0.51 (L/H)

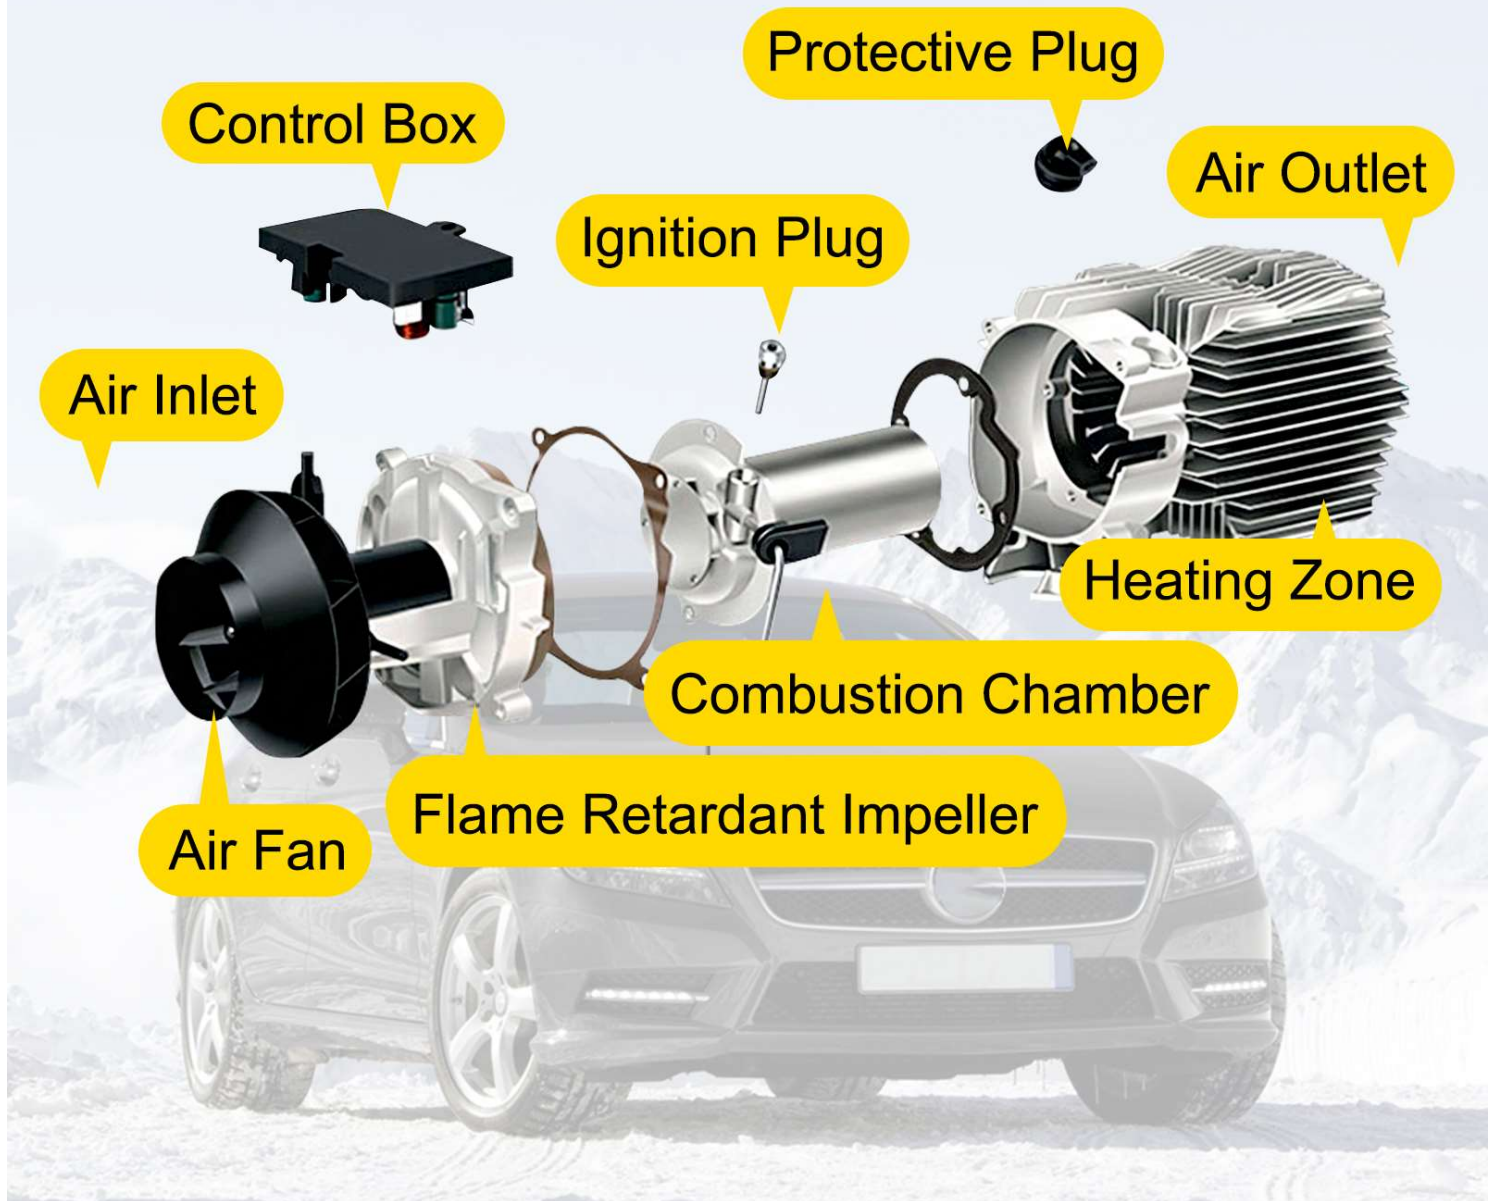

Heater Power	8KW	Fuel Type	Diesel Only
Rated Voltage	12V	Heater Working Temperature	-40°C~+50°C
Operating Voltage	10.5-16/21-32V	Oil Pump Working Temperature	-40°C~+40°C

Energy-Efficient Fuel Pump

Our diesel heater is extremely energy-saving with low fuel consumption of 0.11-0.51 (L/H). Besides, the fuel pump's injection frequency and intake air amount are accurately controlled by ECU to extend the service life.

STURDY ALUMINUM CONSTRUCTION

Sturdy Aluminum Construction

The combustion chamber, base, and heat-dissipating scale are all sand-blasted aluminum parts. This diesel parking heater is integrally constructed, featuring uniform heat dissipation and high-temperature resistance.

LCD MONITOR & REMOTE CONTROL

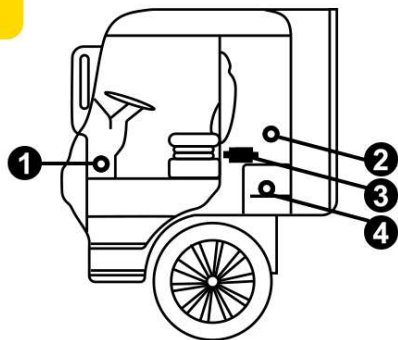

LCD Monitor & Remote Control

With a digital LCD monitor, the parking heater provides manual/automatic mode to adjust the temperature. You can also preset the heating switch time through the timing function and preheat your car with remote control.

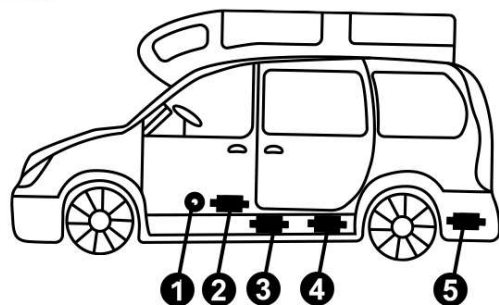

EASY & FLEXIBLE INSTALLATION

Brilliant little heater!

I used it for the space heater in my custom van. It works brilliantly. The English in the manual is tricky but I worked through it.

05/12/21 update on review

05/12/21: Update...Seller reimbursed me \$18. to purchase another digital control panel. These panels are extremely sensitive and should be strategically placed out of the way. All is working well again!04/25/21: Update...Back light on digital display does not work. I have no idea if it's on a timer, what temperature it's at or if it's on the Off/On position? Emailed company today concerned with warranty and how we can avoid having this happen again :01/11/21: Love it, love i, love it!Nice dry heat, nothing like at all like propane at all which makes the air wet and gets cold when turned off. I travel in a van in cold temperatures and should have done this yrs ago. It was difficult for me to install and cut holes for the exhaust so I had a mechanic do it. Definitely worth it over propane heat!!

Hot buy!!!literally!!

This thing cranks out the heat.installed in my pop up camper,replacing the horrible propane heat.This heater is very fuel efficient even when running 2 days straight!!
